

FEDERAL MILK ORDER PRICE AND POOL SUMMARY, JUNE

HIGHLIGHTS. Handler reports of receipts and utilization under the Federal milk order system for June have been filed and tabulated. Combined totals for the 10 consolidated orders are being released. During June, about 8.6 billion pounds of milk were received from producers. This volume of milk is 14.5 percent lower than the June 2006 volume. In June 2006 and June 2007, there were significant volumes of milk not pooled due to intraorder disadvantageous price relationships. About 3.5 billion pounds of producer milk were used in Class I products, 2.1 percent lower than the June 2006 volume. Calendar composition likely had a slightly positive impact on milk used in Class I in 2007 as compared to 2006. The all-market average Class utilization percentages were; Class I = 41%, Class II = 17%, Class III = 33%, and Class IV = 9%. The weighted average statistical uniform price was \$20.35 per cwt., \$2.23 higher than last month and \$8.27 higher than last year.

PRICE AND POOL STATISTICS FOR FEDERAL MILK ORDER MARKETING AREAS FOR THE MONTH OF JUNE 2007										
FEDERAL MILK ORDER MARKETING AREA <u>1/</u>	ORDER NUMBER	RECEIPTS OF PRODUCER MILK		UTILIZATION OF PRODUCER MILK IN CLASS I			UTILIZATION OF PRODUCER MILK IN OTHER CLASSES			UNIFORM PRICE <u>2/</u>

ALL MARKET AVERAGE OR TOTAL		8,559.8	-14.5	3,507.1	-2.1	41	17	33	9	20.35

1/ Names in parentheses are the major city in the principal pricing point of the market.

2/ Statistical uniform price for component pricing orders (Class III price plus producer price differential). For other orders, uniform skim milk price times 0.965 plus uniform butterfat price times 3.5.

3/ Due to a disadvantageous relationship between intraorder class prices and the location adjusted statistical uniform (blend) price in these markets, handlers elected not to pool an estimated 1.7 billion pounds of milk that normally would have been associated with these markets. In June 2006, the estimated not pooled volume of milk was 430 million pounds, occurring in Order Nos. 030, 032, and 126. After adjusting for not-pooled milk, the year-to-year percent change is -2.0%.
